**Dear friends, partners and customers of the
UCC Magdeburg,**

Welcome to our first newsletter in 2026!

We hope you have had a successful start to the semester and are looking forward to the new opportunities and challenges this year.

We at UCC Magdeburg will once again be actively supporting you in your teaching and research with our SAP teaching and learning environments.

In this newsletter, you will find information about our revised SAP Analytics Cloud Curriculum 4.0, as well as all the dates and content for our current spring training season. Furthermore, there will be some great regional meetings and conferences taking place over the next few months. We would be delighted to welcome you to one of the conferences and, as always, we value the opportunity to talk to you in person. You can find more information about this in the newsletter below.

We hope you enjoy reading and we welcome your valuable feedback or follow-up questions.

Best regards,
Your SAP UCC Magdeburg

New SAC 4.0 curriculum available for everyone!

The new Curriculum 4.0 is now available for the SAP Analytics Cloud learning environment. Due to extensive updates and innovations, we have completely revised the entire curriculum. We are pleased to provide you with a compact overview of the most important new features. In addition to updating the data model from 2018-2025 and planning data for the current year 2026, we have converted the entire curriculum to the modern Horizon Theme. Particularly highlights include the five brand-new case studies:

- **Datasets:** In addition to the case study on the Modeler, a corresponding case study on Datasets is now also available.
- **Presentation Mode & Geomap:** The Presentation Mode in the Story Builder replaces the Digital Boardroom. At the same time, the creation of a comprehensive Global Bike presentation is combined with geomaps - this allows you to cover two topics in one case study.
- **Story Builder Advanced:** For the former "Analytic Application", there is now the left sidebar in the Story Builder. This case study explains the basic functions.
- **Smart Predict:** The first case study on SAC Predictive, which covers various machine learning-based forecasting methods.
- **Planning 3 - Value Driver Tree:** Besides the case studies on planning concepts and calculations, the third case study in the area of SAC Planning now follows, focusing on the topic of value driver tree.

We kindly ask you to start using the new Curriculum 4.0 right away and to plan the upcoming semester based on the updated documents and files.

If you have any questions or suggestions, or if you would like to test the new SAC Curriculum, please feel free to contact us at any time customer-relations@ucc.ovgu.de.

SAP

Save-The-Date for SAP ACC Nordics & Baltics, SAP ACC Benelux and SAP ACC Central & Eastern Europe!

Dear lecturers and professors,

2026 will be an exciting year, offering various opportunities to exchange ideas with other professors and lecturers from your region at regional SAP Academic Community conferences about new innovations and tried-and-tested tips and tricks for academic teaching with SAP. We would like to cordially invite you to mark your calendars for the upcoming regional SAP ACCs and meetings:

SAP Academic Community Meeting Nordics & Baltics: The academic SAP community from the Nordic and Baltic countries will meet on May 18 and 19 to discuss SAP in teaching and to exchange best practices. The meeting will take place at Haaga-Helia University in beautiful Helsinki, Finland. If you are interested in meeting other SAP-experienced lecturers or using SAP in your teaching in the future, please register [here](#).

SAP ACC Benelux: For the ninth time, SAP UA and SAP UCC Magdeburg are inviting

customers from the Benelux countries to participate in the SAP Academic Conference on May 21, which will be hosted by the Hogeschool Gent in the picturesque city of Ghent in Belgium. You will receive further information via email.

SAP ACC Central & Eastern Europe: We warmly welcome our partners from the Eastern European community to Bucharest, Romania, where this year's SAP ACC CEE will take place at the Bucharest University of Economic Studies (ASE). From June 23-24, we look forward to giving you the opportunity to exchange ideas about SAP with fellow enthusiasts.

We will send you a save-the-date invitation and registration details soon. You will also find further information and, shortly, a registration option on this page:

We look forward to your active participation and to meeting you in person.
Stay tuned!

Your UCC Magdeburg

The SAP UCC Magdeburg offers technical and application support for SAP technologies in teaching and research. Our curriculum designers create corresponding comprehensive teaching materials for academic use. Our support team takes care of backup, system operation, monitoring, maintenance, and updates of SAP solutions in the UCC cloud. You can comfortably access the teaching and learning environment via the WEB, allowing you to fully concentrate on your teaching and research.

We hope you enjoyed the newsletter and are looking forward to your feedback. If you have any further questions, queries, or comments please reach out at any time by just replying to this email or writing to customer-relations@ucc.ovgu.de.
